EMPLOYMENT

Flatchr
Sept 2024 - Feb 2025   Full stack developer: React | Node.js

I developed and maintained a complex ATS and implemented AI solutions.

ENTREPRENEURSHIP

GAI
Jul 2023 - Jun 2024   Lead developer: NEXT.js | LLM

I led the craft and deployment of advanced applications, integrating AI algorithms for creative content generation.

FREELANCE

Loyalty Company
Mar 2022 - Jun 2023   Lead Front developer: React | Typescript

I developed and maintained a custom CMS and complex front-end, mentored junior developers, participated in recruitment, and contributed to marketing-driven projects.

Europ Assistance
Jul 2021 - Jan 2022   Front developer: React | Typescript

Developed a comprehensive client-side back-office for managing user permissions by administrators.

UNICEF
Feb 2021 - May 2021   Front developer: React | Typescript

Implemented new features on the childmortality.org interface, including additional graphic series and mobile-responsive views.

SIS-CC
Sep 2020 - Dec 2020   Back developer: Node.js | JWT

Developed an authentication service within the SIS-CC architecture.

OECD
Jan 2020 - Jun 2020   Front developer: React

Through an application for OECD authors to publish books, I implemented unit tests to achieve 70% coverage, refactored a large form, and added new features.

EMPLOYMENT

Redpelicans
Jan 2019 - Jan 2020   Full stack developer: React | Node.js

Redpelicans is a company that provides comprehensive full-stack JavaScript expertise to its clients. They afforded me the opportunity to collaborate with developers boasting over 15 years of experience on advanced JavaScript projects.

EDUCATION

School 42
Nov 2016 - Dec 2018

42 is a top-tier engineering and programming college known for its rigorous, industry-leading curriculum and professional training environment.

Lycée Paul Langevin
La Seyne/mer | 2013 - 2016

Baccalauréat ES.
